## SAS Finance Analytics School for Students

Shaping the Future of Finance Through AI and Advanced Analytics

23rd - 25th June 2026

A three half-day online school for students in finance, data science, and analytics

Register now

The screenshot shows a registration page for the SAS Finance Analytics School for Students. The page has a dark blue header with the event title and navigation links for "Speakers", "Agenda", and "Register now". The main content area features a large image of a woman with curly hair and glasses, wearing a blue blazer, looking at a tablet. The text on the page describes the event as a three-half-day online school for students in finance, data science, and analytics, taking place from June 23rd to 25th, 2026. A prominent blue "Register now" button is located at the bottom of the main content area.

Finance is evolving quickly. Not only because of AI, but also due to growing data volumes, stricter regulations, and new types of risks. SAS helps financial organizations navigate these challenges and during this 3 half-day online school we will give you a practical look at how AI and analytics are transforming modern risk management and helping organizations protect their money and build trust.
